The sequence of courses gives you skills that biotechnology/pharmaceutical industry employers need.

Clinical Trials Design & Management Certificate
- $4,790 for an 11-course program plus a $50 certificate of completion fee

*Subject to change

What Students Are Saying

“...I was just a fan of the location. It was so convenient. I work in the financial district and it was so refreshing to just run out of work, grab a quick dinner and be in class within an hour. I appreciate the flexibility of the classes. Whether it was an evening class or a day long class or whether it was online, it was really helpful to have those options. It was great.”

- Emily Morris
