Begin a career as a pharmacy technician. As a pharmacy technician, you will assist pharmacists with many tasks including assembling medicines for prescriptions, educating patients and managing dispensary supplies. Employment of pharmacy technicians is expected to grow 20% by 2022. Many factors, including a national shortage of registered pharmacists and the increase in the average lifespan will keep the position in high demand. Our Pharmacy Technician Certificate Program is designed to train you for a career as pharmacy technician in less than three months. The in-depth curriculum also prepares you for the Pharmacy Technician Certification Board exam.

Why enroll in our Pharmacy Technician Program?

**Clinical Externships**
Get real-world training with an 80-hour clinical externship included in the program.

**Learn Pharmaceutical Terminology**
Understand pharmaceutical terminology, including drug names and classes.

**Online and In Class Options**
Learn in an online, self-paced environment or in class with a group of fellow students.

**Get Ready for Certification Exams**
Prepare for the Pharmacy Technician Certification Board (PTCB) national certification exam.
Certificate Programs

Our Pharmacy Technician Certificate Program offers an in class or online certificate. The online course is self-paced and includes learning modules, 24/7 mentoring, learning exercises, and labs. The in-class program classes are held on Saturdays only. Although the modes of education are different, the knowledge and training received for each certificate is the same.

This high demand for the role is the result of a multitude of factors including the constant availability of new drugs, the national shortage of registered pharmacists, and the increase in the average lifespan.

Pharmacy Technician Certificate Program
- Cost: $1,299 for a self-paced e-Learning course that gives you six months of access to all textbooks, workbooks, and related course material.
