  - Understanding the Project Management
    - Program Overview
    - Who Should Take Courses
  - Project Management Certificate Program
    - Course Offerings
- Job Outlook
- Project Management Institute Certifications
"Those who plan do better than those who do not plan even though they rarely stick to their plan."

Winston Churchill
Project Management is the discipline of planning, organizing and managing resources in a way that allows a project to be completed within a defined scope, quality, time and cost constraints.

This program is designed for current professionals seeking to add project management knowledge and techniques in their current positions, professionals seeking promotion, career-changers, or those just breaking in to this expanding field.

Courses are held typically evenings or weekends

Courses are 18 classroom hours each (1.8 CEUs)

Course schedules may vary semester to semester

Courses are offered in Spring/Summer/Fall semesters
Our Program is a Project Management Institute’s (PMI)® Registered Education Provider (R.E.P.)®

As a Registered Education Provider (R.E.P.)® of project management training, the program is based on the Project Management Institute (PMI) Guide to the Project Management Body of Knowledge (PMBOK® Guide).

SF State College of Extended Learning abides by PMI established quality assurance criteria.
Who Should Take Courses

- Project managers seeking to be an applicant for the Project Management Professional (PMP)® exam credential
- Project leaders who want to take their management skills to the next level
- Anyone who wants to lead a project effectively throughout its life cycle, from initiation to successful completion
